

Most students take the "World Around Us" for granted. The world of our today with its joys and fears, disappointments and triumphs is reflected in the memories we carry into the future. May this annual record those memories for the future, preserve their fun, their lessons, but dim their sadnesses. As we look through the pages let us remember North as a world whose reflected light guides our footsteps and illuminates the way to our future, wider world wherever and whatever it may be.

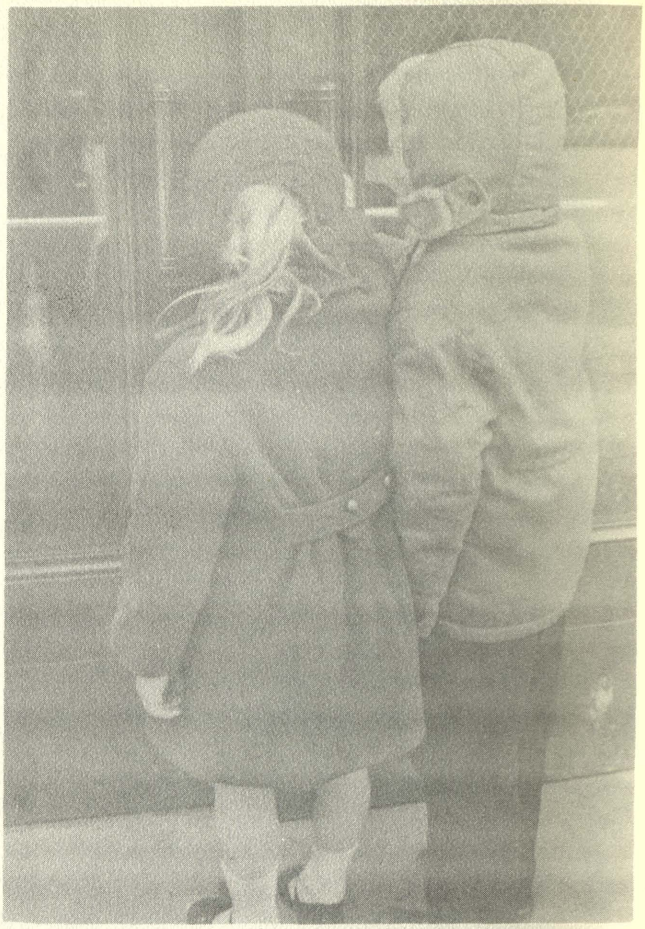
Through these doors pass a great number of young children beginning their school career. Their story is told in these pages--- from kindergarten through the ninth grade.

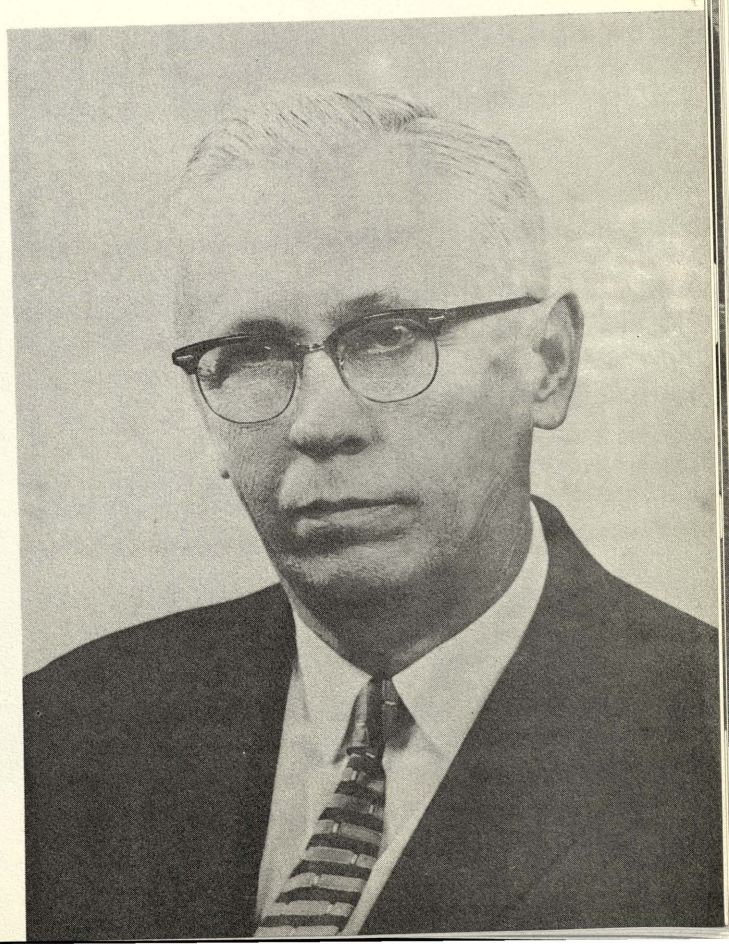


From the elementary department North is losing a well-liked and creative teacher, Miss Gertrude Ferguson. Her efforts have been greatly appreciated by her many students and her fellow faculty members.

MISS ALICE HOLAHAN

"The World Around Us" includes two respected faculty members who have been teaching at North Intermediate since it opened its doors.

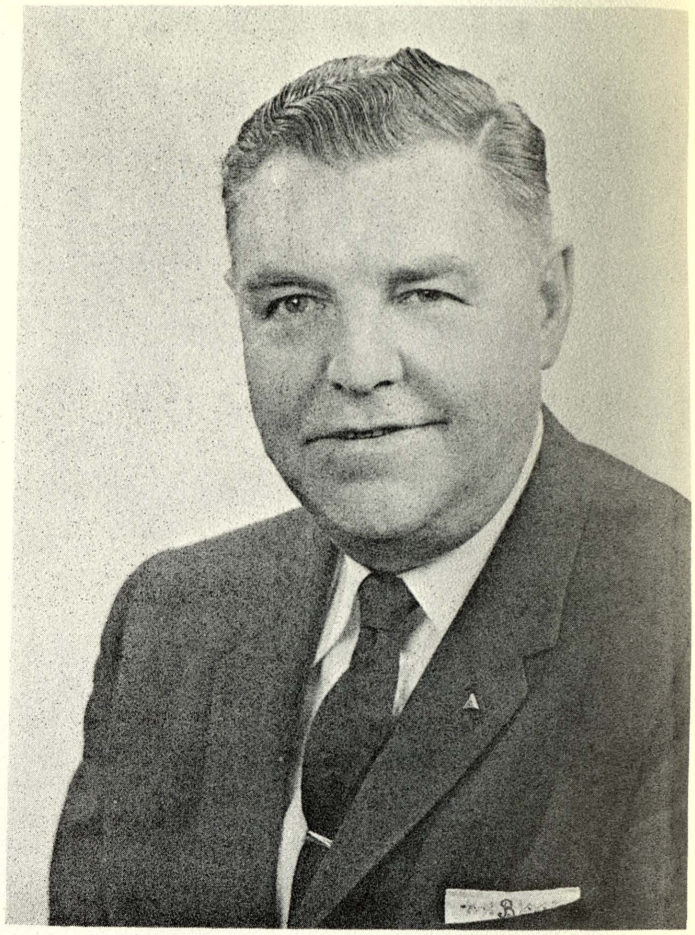
In appreciaton of their fine teaching and their help to the thousands of students they have taught, we, the students, dedicate our 1960 Northern Light to Miss Alice Holahan and Mr. Elden McMacken.



MR. ELDEN MCMACKEN

We know you are going to enjoy the Annual of 1960 for years. It has many fond memories that you'll cherish. The journalism and printing students have worked hard to produce this fine book for you.

These memories, we hope, will be a good foundation for your future lives.

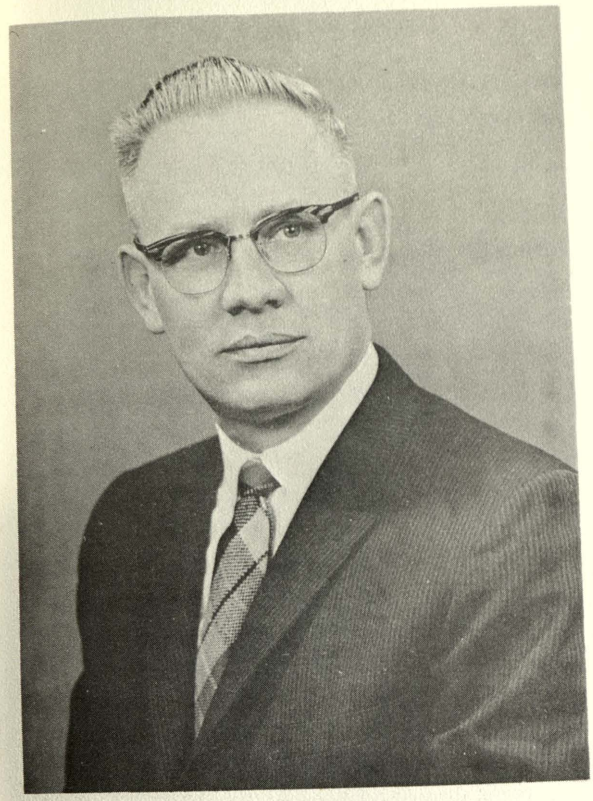


**MR. FLOYD E. BYRON**
**Principal**

**MRS. NAOMI M. MYERS**
**Elementary Principal**

We would like to wish our ninth graders who are leaving us much happiness.

"For somehow, not only in this year of 1960,
But all our life through,
The joy that you give to others
Is the joy that comes back to you."

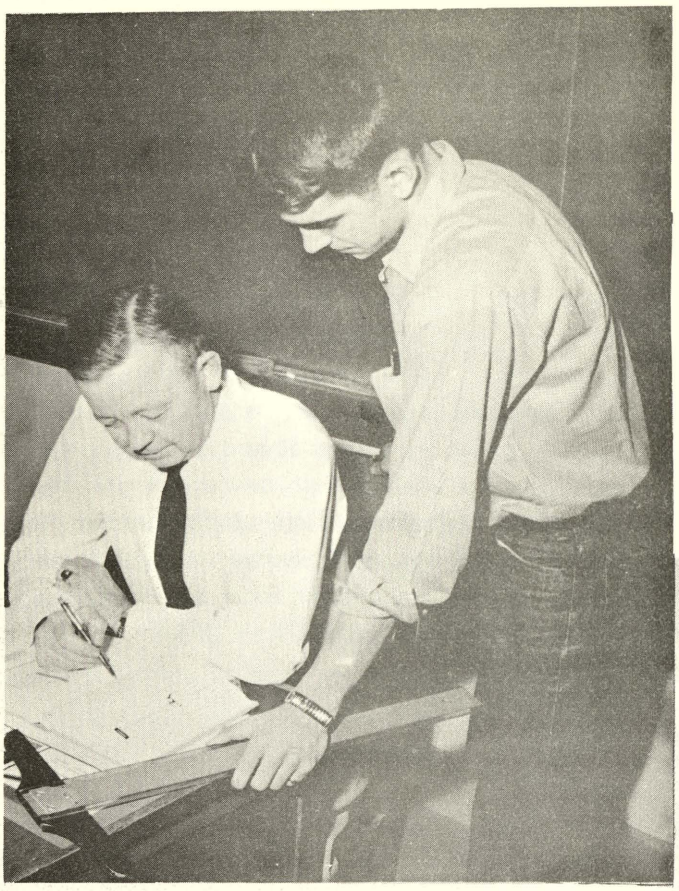


**MR. JOHN D. PARR**
**Assistant Principal**

Another year, another class of ninth graders leaves North, where so many things have happened to them, to enter a fast moving and dynamic world. In order to understand that world, live in it and be happy, we must be alert to all change, new developments and adapt ourselves to this daily change.

I hope that you will realize your dreams and ambitions for the future and that you will lead full and happy lives in this changing world around us.

Board of Education President E. P. Stansbury, Superintendent C. C. Coulter, Vice-president W. A. Leesch, Secretary H. M. Karls, Treasurer H. M. Rockwell, Board Member R. J. Heagany.



GENERAL AND OCCUPATIONAL
INTEREST INVENTORIES

As in most secondary educational systems a guidance program has been established for the welfare of the individual student. Personal, academic, and vocational guidance programs are essential for the problems confronting the student. Here at North, each student, at some time or another receives guidance from counselors, Miss Alice Arnold or Mr. Chester Johnson during the school year. Guidance, like many other educational facilites, is a part of the "World Around Us."

The basis of a student's education is the teacher who has devoted his time and talent to the development of the facilities of the mind and body, soul and spirit.

Keeping books, records, making the bulletin, finding the things we lose, are some of the hundred and one things done by the efficient secretaries, Mrs. Edith Otto and Mrs. Janet Ellithorpe.

Mrs. Faye Sutton has to her credit years of service as one of the staff that helps keep our building clean. Mrs. Sutton with her husband watched North being built and later they continued working here.

In our world around us we have appreciated the wonderful job maintenance has done for us. Cleaning our halls, washing our windows, and keeping our building warm in the winter time are just a few of the many chores they patiently and faithfully do for us.

When we first came here we thought the school was immense, but now when the time for our leaving this small world draws near, we wish we could linger. We cannot stay—there are many more worlds to discover.

Editor Jeanne Gobble

Assistant Editors

John Pickelman Sharon Burt

The editorial staff under the direction of Miss Arnold and the mechanical staff supervised by Mr. Soblesky has written and published the "Northern Light" newspaper and this annual. We would like to thank Mr. Foulds and his art classes for the art work that they have done and Mr. Belmont Willard and the printing department at Arthur Hill Technical High School for their aid and skill.

Werkema Studio was most cooperative and covered our events in fine style.

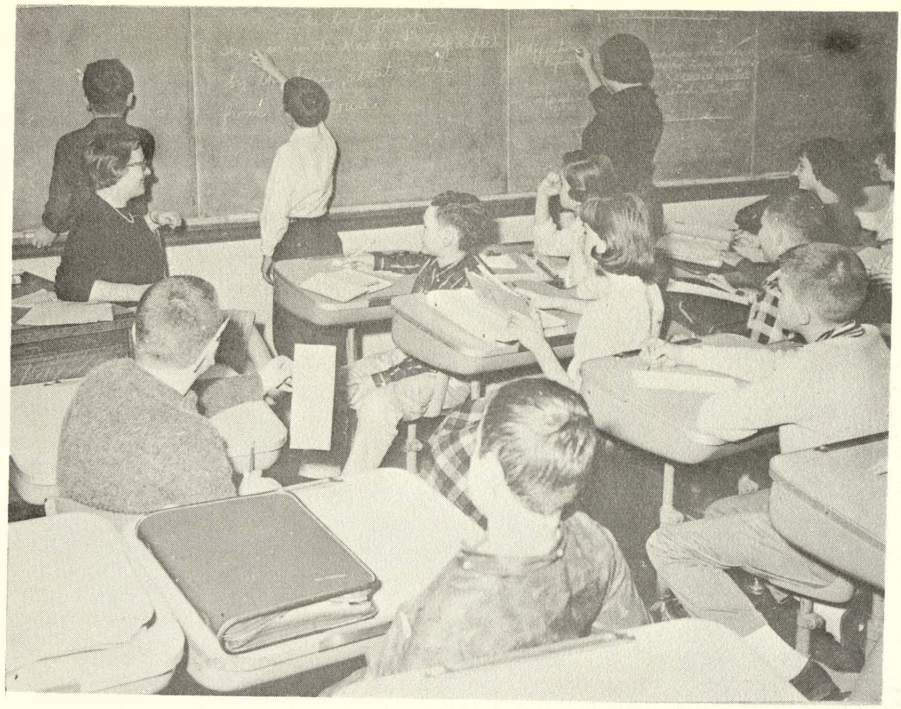
In the classroom we have many new and invaluble experiences. Through our studies we gain a knowledge of many subjects under the supervision of our teachers.



In our English classes we learn to read, write, and spell properly.

Through themes, book reports, and spelling lessons our ability to communicate improves and expands.

## STUDENT COUNCIL

Our Student Council, sponsored by Mr. Hayes with President Robert Trew and Vice-President James Flora, worked together to revise the school constitution and to better the school government.

Front row: K. Kerr, J. Flora, R. Trew, C. Hovis, V. Mc Donald, Sponsor Mr. Hayes.
Second row: J. Chisholm, G. Rohn, E. Krictzs, J. Birnbaum.

### President's Council

Our President's Council is supervised by Mr. Parr with President Ed Kritczs and Vice-President Peter Boise. The main duty of this council is to boost good citizenship and scholarship at North.

### Vice-President's Council

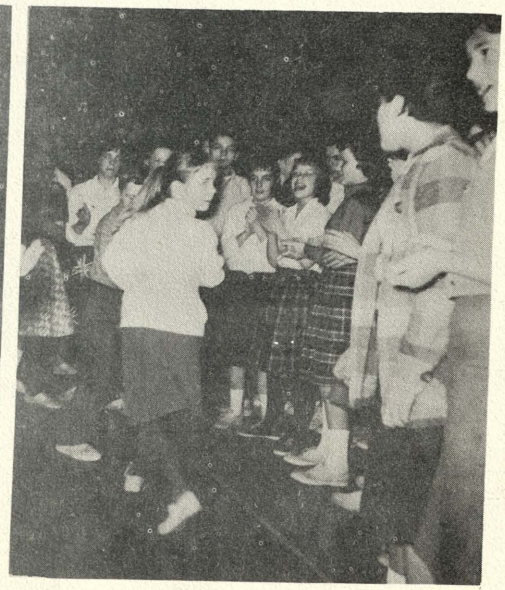
Our Vice-President's Council worked during the year to further the Junior Red Cross.

The Vice-Presidents worked for a 100% membership. Miss Erma Trask is advisor for this council.

### Secretary's Council

Our Secretary's Council's sponsor is Miss Arnold, President Jerry Rohn and Vice-President Ken North. The secretaries worked with their homeroom teachers in conducting the homeroom meetings.

Our Booster's Council is sponsored by Miss Faist with President Karen Kerr. A Booster's job is to raise school spirit by selling tickets for games, plays, and other activities.



Dancing in the girls' gym during the lunch hour is one activity for the students planned and sponsored by the Student Council. These Friday noon record dances are held during cold weather.

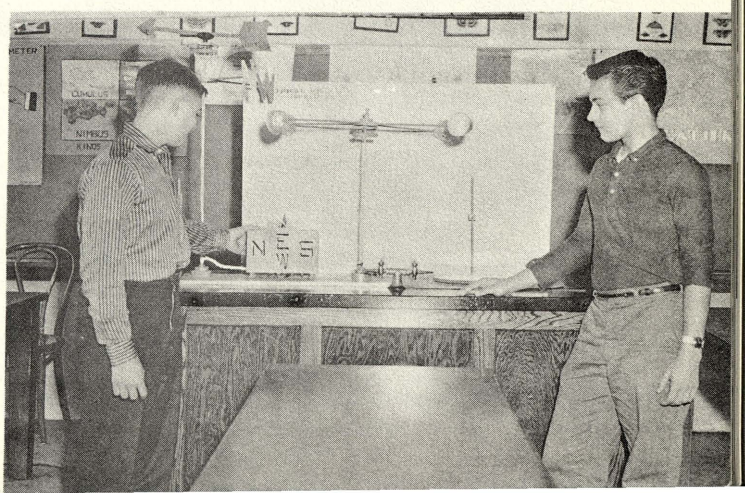
Mr. Byron

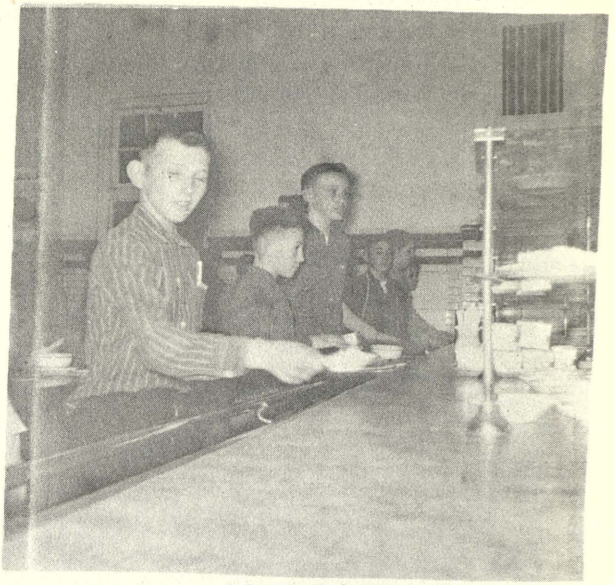
Diana Skentzos, an eighth grader, has won a scholarship to study voice at Interlochen Music Camp during the summer. Each year the Lucy B. Morley Foundation presents a similar award to an eighth grader who has undertaken study in the field of music.

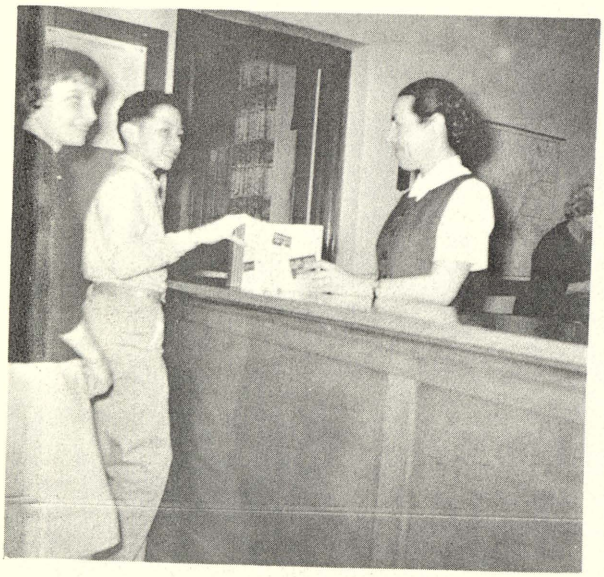
Bob shows his project to Rene.

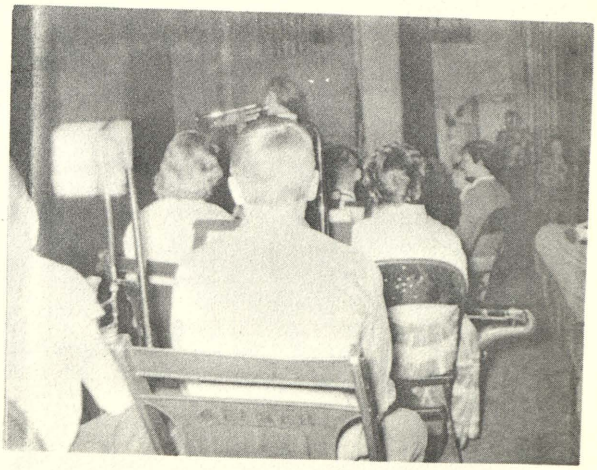


Rene St. Pierre, a third prize winner, was presented a set of Popular Science Encyclopedia. Robert Schneider won fifth prize, but was also awarded a special plaque and thirty-five dollars by the Air Force. A special five dollar award from the Saginaw Dental Association for the best dental science project was presented Diane Henne.

# REMEMBER WHEN?







Participating in North's Science Quiz team this year were sixteen boys from the eighth and ninth grades. The Science Quiz team has stimulated these boys' interests in science and gave them a chance to receive public recognition of their knowledge.

Left to Right: Sponsor F. Gibbs, P. Corrad, E. Timm, E. Wuckert, K. Green, Sponsor M. Myers

## NORTH BREEDS FUTURE SCIENTISTS

Representing North at the Saginaw Science Fair this year were twelve students from the ninth grade and twelve students from the eighth. Along with these students and their projects we sent our trust, knowing they represented our school well.

Pictured above is Michael Baird, an eighth grade student, with his science project entitled "Looking North into the Stars." His project was sent to the Saginaw Science Fair.

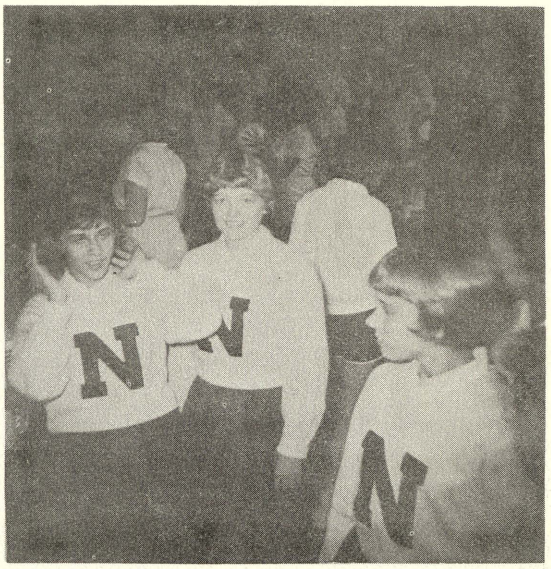
NINTH GRADE CHEERLEADERS

EIGHTH GRADE CHEERLEADERS

Leading the student body in cheers at all athletic contests and organizing and putting on pep assemblies under the direction of Miss Trask has been the main function of our cheerleaders. This year our ninth grade cheerleaders were Phyllis Reed, Carol Brussow, Donna Dunbar, Captain Carol Hovis, Connie Kreuger and Sharon Hovis. Eighth grade cheerleaders were Cheryl Meier, Susan Case, Lynn Uphoff, Karen Martin, Leslie Gaus and Captain Kathy Busch.



With the student body behind them the girls on the volleyball team fought onward to eight victories.

The tools of life are new to us; we are getting accustomed to using them and learning to live co-operatively.

Kindergarten —Room 136

Kindergarten, room 136. Many physical, social, emotional, and mental changes have taken place within each child this year in school. Each has learned to assume responsibilities, to become cooperative, and contributing members of a group.

Activities that the kindergartener has enjoyed at school may lead into a profitable use of leisure time and to the pursuit of hobbies during the long summer vaction.

First Grade—Room 125

First grade, room 117, has had a busy and happy year. We enjoyed units on "Pets and Animals;". "The Toy Shop," "Library," and the "Greenhouse".

We visited the Butman-Fish Library and the Saginaw Museum. We liked having Miss Susan Seidel, a student teacher, with us during the first semester. We prepared a Thanksgiving Feast for ourselves, squirrels, pets, and guests. We have enjoyed learning to read and write and have read many books.

First grade, room 125. We have learned how to care for pets and had some children's pets visit our class. We had lots of fun with our stuffed animal parade. We visited the circus exhibit at the Saginaw Museum and made a three ring circus on our bulletin board.

Second grade, room 115, studied the farmer's place in the community. During the course of our study, we learned about the grasshopper, the dairy farm, the uses of milk, and visited a dairy.

We studied community helpers and children of other lands. In this study we learned a little Spanish.

We made a paper mache replica of our solar system and painted the sun and planets in brilliant colors.

First Grade—Room 117

Second grade, room 116, had a busy and happy year. Among our projects were the making of puppets, building a store, studying bread, visiting Gases' Baking Company, the circus exhibit at the museum, visiting a dairy, exploring outer space, and building cardboard rocket ships. We wrote original songs. We planted seeds, studied insects and raised guppies.

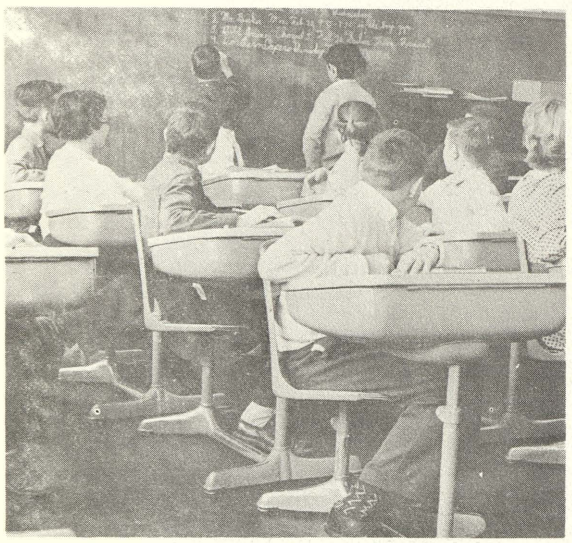
Third grade room 212 have enjoyed "living with the Indians" during the first semester this year. Many children changed their views and opinions of Indians.

During our study of "Early Saginaw" the children had exhibits and displays.

During the second semester we studied about "Transportation". "Transportation into Space" seems to be the favorite topic.

We planned excursions this spring to "Tri-City" "N. Y. Central Railroad Depot", and to the "Fire Department" If the children have been motivated in the search for knowledge and stimulated for further study, our work will have been well worth-while this year.

Sixth Grade—Room 208



Sixth Grades—Room 118

Fifth Grades—Room 217

Fourth grade, room 218, learned and improved new and old skills. After reviewing and learning the multiplication tables, they used them in their newly developed skill of dividing and multiplying by two or more numbers. The class decorated several bulletin boards with three dimensional art work. They wrote and dramatized several plays. They learned two-part songs and started conversational French.

The boys and girls were especially interested in studying science to prepare them for a visit to the University of Michigan Museum.

Fifth grade, room 217. Fifth grade means dividing by two and three numbers, getting acquainted with fractions and learning about the United States and its neighbors. The learning was helped by murals, dramatizations, original stories, and all types of art work.

We've had fun learning some Spanish and we hope to take a trip.

We believe we're ready for the sixth grade.

Fifth and sixth graders, room 213, have shared the exciting adventures of the explorers of long ago and of today. We celebrated with a luau after finishing the study of Hawaii. By following the Olympic Games, we studied about the homes of the athletes. To prepare for our visit to the Planetarium and the museum at Cranbrook, we studied the solar system, rocks, animals, and Michigan history.

Sixth Grade, room 118, studied undersea life and made a mural illustrating it. In January we went to the Robert T. Longway Planetarium in Flint. We have studied South America and Asia. We are making cardboard images of the people of India.

Sixth grade, room 208. Early in the fall, sounds of song flutes and tonettes could be heard from room 208. During our study of France a large mural could be seen consisting of the "Eiffel Tower", the "Arch of Triumph", and the "Cathedral of Notre Dame". We ended our study of Germany with an original skit.

We took a trip to the Robert T. Longway Planetarium.

A study of invertebrates led to a trip to the University of Michigan Natural Museum.

Third grade, room 209, exhibited different ways of travel in connection with their transportation unit. While studying Indians, they made tepees, Indian clothing, rugs, pottery, drums, and colorful Indian designs. They visited the Saginaw museum to see the Pioneer Exhibit; they studied Pioneer Life. They acted out a pioneer play, and learned to knit, weave, and square dance.

Another trip was taken to the Bintz Apple Orchard by bus, to see how cideris made.

The children showed fine growth in citizenship, building their vocabularies, learning self-control, self-reliance and independence in the formation of work habits.

## Junior Red Cross

The Elementary Junior Red Cross has been busy, as usual, making attractive gifts for the hospitals.

Kurt Lauer, sixth grade representative, was elected president of the Saginaw Red Cross and Kris Lauer, fifth grade representative, was chairman of the city production committee. Mrs. Ethel Wells was the teacher sponsor for the group.

Choir: Boys and girls from the fourth, fifth, and sixth grades made up the Elementary Choir directed by Mrs. Janet Wise, traveling music teacher. They presented the music at the Elementary Christmas Assembly.

Special interest classes in French and biology were offered this year to students in the fourth, fifth and sixth grades. Miss Mary Ellen Favara taught the conversational French class, while Miss Ruth Mannion taught a biology course.

## ELEMENTARY STUDENT COUNCIL

Our Elementary Student Council consists of President, Vice President, Secretary and a representative from each room. The captains of the Patrol, Monitors, Monitor Patrols and fountain checker are also members of this group.

Our president, Margaret Ivey, has done a fine job this year in getting good participation from every member and in turn bringing to the group news from the various rooms.

Our job this year is to make "North Elementary School" one of which we can all be proud.

## ELEMENTARY PATROL

We have thirty-one patrol boys who protect the boys and girls at the street crossing. This year the patrol chose "A Patrol Boy of the Month." This honor is given to the boy who shows outstanding devotion to duty for that month. We honor him by giving a certificate and displaying his picture on the chart in the main office. The patrol boys chosen have been: Janis Auzins, Joe Lennox, Steve Larson, Bill Mueller, and Jerry Neiderquill. We maintained our perfect record for non-pedestrian-car accidents this year. One of our outstanding activities was when Mrs. Dawn Campbell, our sponsor, took us to see how the Saginaw Police Station operates.

**Eight student teachers externed at North this year. In the elementary were three students from Central Michigan University. Miss Judy Toft did her teaching under the direction of Mrs. Ethel Wells, Mrs. Judy Scott in Mrs. Campbell's sixth grade and Miss Susan Seidel in Miss Palmer's first grade. Mr. John Hansen, also from Central Michigan, taught gym under Mr. Goodenow in the junior high, while Mr. Thomas Piskos under Mr. Fould's direction taught junior high art.**

**Three student teachers externed from Michigan State University. Miss Georgia Hagen worked with Mrs. Northcott, Miss Nancy Edmondson with Mr. Hayes, and Miss Jane Engel with Mrs. Newberg.**
